## About Our Peonies

The great development of the Peony industry and the increasing demand for roots and flowers should induce every gardener, florist and nurseryman to make a planting of the standard varieties, and, as his interest increases, plant a few of the better new varieties. With a small outlay your planting will increase in value year after year.

## Read This Before Ordering

As we dig and plant all our Peonies in the Fall, we cannot accept orders later than October 1st.

GUARANTEE. As liberal as can be made. If stock is not as represented or what you have a right to expect, return it to us at once and the money you have paid us, together with transportation charges, will be refunded to you. Fair, isn't it?

TERMS CASH. Boxing free, which represents a cash discount of about 5 per cent. We will have no loss and you will be taking no risk.

PACKING is done in the best possible manner. We use only pure sphagnum moss for all nursery stock. It costs us more, but the saving in weight and the insurance against loss and possible damage more than offset the cost.

SIZE OF ROOTS. We send out the same sized roots we use in our own planting. A well balanced root system, carrying from 3 to 5 eyes, depending on growth of variety. Unless instructed to the contrary, we trim all roots, making the plant shapely and saving transportation charges. We send out no "clubby" roots.

VISITORS WELCOME. We are located just south of Auburn Center, $71 / 2$ miles north of Mantua, and 9 miles southeast of Chagrin Falls. Cleveland-Youngstown bus lines pass within a few minutes walk of our nurseryget off at Auburn Center.
